

Forbury Park
Trotting Club Inc

Media Release 03rd July 2020

Victory for Forbury Park

Forbury Park Trotting Club is back on the racing calendar! We are pleased to announce we will be holding 10 events in the new season which starts in August. In addition to this, we are delighted to welcome back the Tuapeka Harness Racing Club who will race at Forbury Park at Labour Weekend.

We wish to thank RITA for working with us and supporting Forbury Park. We are looking forward to our first race meeting here on the 01st of October and are happy to retain our well-deserved spot on the racing calendar over the autumn and winter months. We look forward to working constructively with HRNZ to ensure these are successful events for the industry.

Not only is racing back but we are delighted to announce an exciting development. Forbury has been working with a local consortium who have purchased surplus land for residential development. This will improve the club's stability which will benefit the club, racing industry and the Dunedin community. The development will enhance our site and allow us to make further decisions and improvements to secure the clubs long term future. Forbury is pleased to see this development progress to help support Dunedin's housing shortage.

Forbury Park wishes to acknowledge and thank those on our team who have worked tirelessly to see both racing and this development advance. We also thank the many supporters near and far that have contributed to this outcome. We look forward to racing resuming and being part of the future of racing in Otago.
